

Dear Sirs/Madam

Concerning the NAB's petition 04-160; I feel it would be outrageous to put limits on the content available via satellilte radio. Satellilte radio provides a service I am willing to pay for. If the broadcast radio association are so concerned about competition, then let them improve their service. Please stay out of the issue and let free enterprise work. If you hold that the airwaves belong to the public, then let me make the decision on who gets my business.

Thank you.

Larey J. Kerling
